

Documentation

Important output of the software:

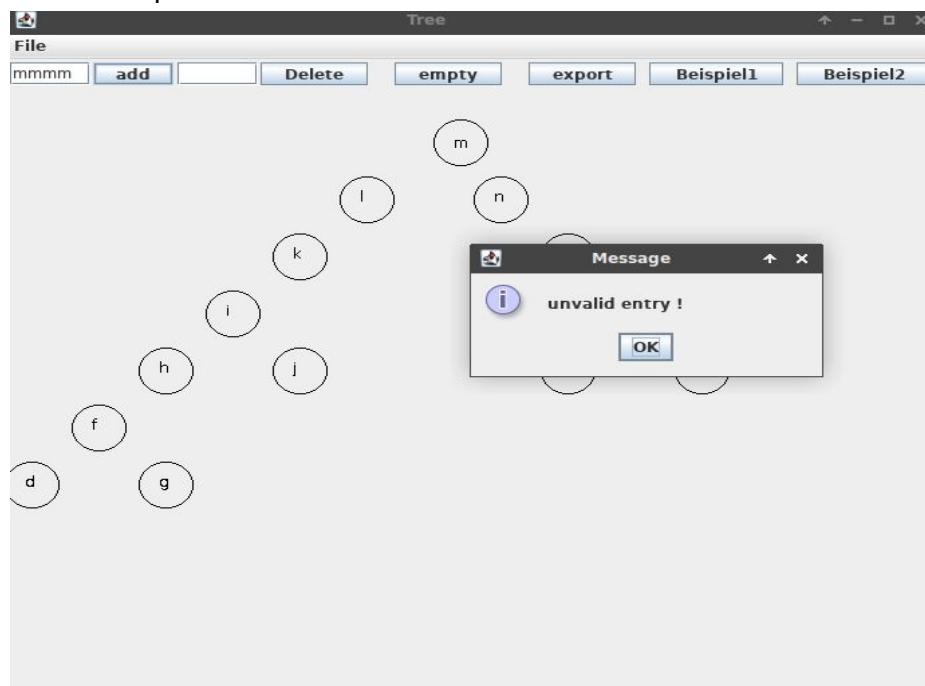

Initial state:

Output of the tree:

Case the input of the user is not valid in delete or add text field:

Console output of the tree:

```

<- n
<- m
  <- l
    <- k
      <- i
        <- h

--- Baum - Uebersicht ---

      <- r
        <- q
          <- p
            <- o

    <- n
  <- m
    <- l
      <- k
        <- i
          <- j
            <- h

```

Problem can occur while using the software:

It could have coalition:
